Introduction

Thank you for choosing to purchase this quality product. To minimise the risk of injury, we ask you to always take some basic safety precautions when using this product. Please read this operating manual carefully and make sure that you understand it. Keep these operation instructions in a safe place.

Safety instructions

- Packing material is not a toy. Make sure that it is kept out of children's reach, and keep your pet away from it. **Danger of suffocation!**
- After unpacking, check the individual pieces of the doghouse for damages. In case you remark damages on individual pieces, do not assemble the doghouse, but contact the vendor first.
- After unpacking, wait 2 to 3 days and leave the pieces outside to allow them to adapt to environmental conditions. Thus, warping of the wood after assembly is avoided.
- Each improper use of the doghouse can lead to material damages and/or personal injuries. Therefore, check the doghouse for damages before each use. Have the doghouse soon repaired.
- It is not allowed to modify the doghouse. Modifications will void warranty.
- Have an expert perform repairs.
- During assembly, wear protective gloves, protective goggles, and safety shoes.
- The screws must not protrude from the wood. Make sure that they are always flush with the wooden parts of the doghouse.
- During assembly of the doghouse, children, and persons with reduced physical, sensory, or mental abilities must be kept from the sandpit.
- For safety reasons and to avoid personal injuries, file off sharp edges with a suitable abrasive.
