Introduction

Thank you for choosing to purchase this quality product. To minimise the risk of injury, we ask you to always take some basic safety precautions when using this product. Please read this operating manual carefully and make sure that you understand it.
Keep these operation instructions in a safe place.

Technical drawing and parts list

№	Name	№	Name
1	Mailbox	7	Ring covers
2	Frame	8	Floor screw
3	Cross bar	9	Cross bar screw
4	Key and lock	10	Spacer screw
5	Name plate	11	Mailbox screws
6	Spacer		

Assembly instructions

Choose a suitable location to place your mailbox system. Make sure that the surface is level and that you can anchor the frame firmly with the floor screws. We recommend that you assemble the mailbox close to where it is to be installed.

- Push the ring covers **(7)** onto the frame rods **(2)**. Check that the ring is pointing in the correct direction (see fig. 1).
- Connect the frame **(2)** and the cross bars **(3)** using the screws **(9)**. Leave the assembly loose and do not fully tighten the screws yet.
- Place the frame in the location that you have chosen and mark the mounting holes for the intended location (lift the ring covers to do this).
- Set the bracket aside and drill holes at the marked locations. Then you can attach the frame **(2)** with the floor screws **(8)**. Then connect the mailbox unit **(1)** to each other using the screws **(11)**.
- Now attach the mailboxes **(1)** with the spacers **(6)** between the bars of the frame **(2)**. Use the spacer screws **(10)** for this.
- Now tighten all the screws and finally attach the name tags **(5)** to the desired locations.
