## Introduction

Thank you for choosing to purchase this quality product. To minimise the risk of injury, we ask you to always take some basic safety precautions when using this product. Please read this operating manual carefully and make sure that you understand it. Keep these operation instructions in a safe place.

## Operation of the padlock

The ex-factory PIN is "00000."

Reset the PIN by turning the reset knob by 90° clockwise.

Turn the digits on the upper side of the padlock until they form the desired PIN. The digits aligning with the adjusting point (on the left) form your new PIN.

Turn the reset knob back to its initial position.

Resetting the PIN is now successful. Note the PIN lest you forget it.

### Technical specifications
